Inmate 360

Your refill has been requested. The bureau does not recommend the antibody test as it is not accurate enough to give proper results.

Hi Dr. Beaudoin

My attorney has been asking me for a copy of my medical records so he could submit a motion to the court for my early release due to my health conditions and my increase risk of contracting COVID 19 with dire consequences. I messaged medical records March 31, April 21, and again today with no reply and no medical records being given to me. I have messaged several other people who I know and still haven't been able to get a copy of them. Could you please look into this for me? I really need these records so he can prove I qualify for an early release due to my medical history and my court date is June 11 only 6 weeks away.

Thank you so much!!

Hello,

The medical staff at the MCC in January told me that I may have a heart issue. They said, that I need to have an EKG and Ultrasound. Until now, I have not been given either. Can I please at least get the EKG? I am pretty concerned, especially after I had contracted the coronavirus. I am feeling much better than before but still coughing. Can I get something for the cough and see the doctor?

Can you schedule an EKG?

Thank you,  
Fred

My respiratory system is not well. My lungs are always aching me and this is not normal for me at all, on the inhale is pain occasionally and consistantly at the sametime, i hope that makes since. And i swear its like i can only smell the inside of my body for at least the last week unless there a very strong other odor! Im truly scared, i heard on the radio people are dying from lung issues without any fever and i dont want to be one of them. I dont have any prior lung problems or respiratory issues this is not suppose to be happening!

Hello, I am currently in 11 North. For the past 10 days I have experienced symptoms related to the coronavirus. I have had the chills, body aches, fatigue and experienced heavy coughing. I find it hard to breathe at times. I avoid taking deep breathes because it feels like my lungs get congested or filled with some type of fluid.

Most of the people in my tier are sick. I would say 13 out of the 16 inmates in my tier are sick. The quarantine is a good idea. I know not much can be done but is it possible to get some type of medication that will help alleviate the coughing? What about taking an antibiotic like Z-pak? This feels like a respiratory illness and I don't think the coughing will entirely go away without antibiotics.

Thank you

Im currently having occasional hot flashes in my head, the other night i was having cold sweats all night, really cold but sweating and then really hot all over, but my temperature was only a little above average, sometimes from my nose up feels a little tight for about a minute or two, everything is on and off though, also at times my stomach feels a little off not really crazy pain but uncomfortable and ill feel as if i have to throw up for about three minutes! Im not saying i believe i have covid-19 but im for sure worried and would like to find out exactly whats going on with my body!

hello Dr.

Its not getting better and I really need medicine. I am not able to sleep and breathe properly in the night as well. Please take care of this. I really need medicine badly. The throat roughness is too much and I have been sneezing and coughing since last 4 -5 days.

Regards

Hello Dr.

Its the 3rd email and 7th request to please help me with the Cough and Cold, Sneezing and Coughing. My throat is painig a lot and its all roughness in the throat and nose. I cant even breathe properly because while breathing, My nose is burning. I have to to put some clothe on the nose and then breathe.

Waiting for your response.

Regards

Hello Dr.

I have informed you in person as well regarding the symptoms and conditions I am facing. Please get me the medicine as a lot of cold and sneezing is not good for me nor for the other inmates as well. I have not been called till now.

regards

Hello Team

I have been suffering from Cold from cough and pain in throat. Pain like of Tonsils in throat. I have already informed about the same 2-3 times last week early to the medical officers but I was never called for the same. After that I felt a little better. But since last 2 days the cough, cold, sneezing is again too much and the pain in the throat is also too much. I want to get it tested and need medical for the same at the earliest. Please consider it urgent.

Regards

Hello, I have been sick for the past three days. I have been coughing as well as mild fever. I haven't been able to sleep because of the coughing and discomfort. My Attornys from Isreal had come to visit me a few weeks ago and my cell mate has been requesting I goto medical to deal with this. Please call me down so I can get checked out. Thanks
